A DAY OF CONVENTIONS

Bradley the Favorite in Kentucky.

NEBRASKA IN LINE FOR MCKINLEY

Democrats of Missouri and Colorado Select Delegates and Declare For Free Silver.

LOUISVILLE, Kv., April 15 .- The Republican state convention, after two long and weary sessions, adjourned shortly after midnight until 9 o'clock tomorrow. While nothing more than organization and a few nominating ecches were accomplished, the result of the day's proceedings seemed to make certain the control of the Bradley for the gold standard, and the selection delegates at large from this state vorable to him. There was a strong eKinley sentiment in the convention, d the friends of the Ohioan were de-

the Eradley men had everything their own mp;
The convention was called to order at 2,35 p,m, by Hon. John W. Yerkes, chairman of the state central committee, who made a brief speech congratulating the Republicans upon the recont victories, paying an eloquent tribute to Governor Bradley, Major McKinley and other leaders, and in conclusion placing in nomination as the choice of the central committee for temporary chairman, Judge Thomas H. Morrow of Pulaski county.

aulted: Morrow Si3 45, Denny 742 1-5. Delogates aggregating 123 votes were passed because of concests.

Judge Morrow in a short speech, in taking the chair, congratulated the Republicane of Kentucky on the progress they had made in the past three years. Ho recalled the early days when he had to get out a search warrant to find his positical associates in this state; the hardships endured by those pioneers of Republicanism; their struggle against almost complete commercial and social cetracism, the gradual development of the party organization in this estate until now the Republicane politically own the state. (Cheers.) The 24,000 votes uset for Abraham Liucoin had grown to 173,000 cast for Bradley.

And, he continued, in 1897 the Republicane would have enough members of the legislature at Frankfort to put an end to the usefulness of the Jack Chinas. There was small comfort for Democrats, Judge Morrow said, in the rivalry for leadership among Republicans. Their strife would end with the amount common of the declaration of this convention. He argoed the elegates to act harmonionally in completing the work of the convention. They had, he said, made their endorsement of cound money unconvention. He tayed a surport of that superbleader urgod every delegate to sally to the support of that superbleaders in greatest leader any party over had in any state—Governor W. O. Bradley.

NEBRASKA REPUBLICANS.

Delegates Instructed to Support McKinley at St. Louis.

Omma, April 15.—The state convention of Nebraska Republicans to select four delegates to the national convention, convened in Omaha touight with 1057 delegates present.

William P. McCheary was made temporary organization made purmanent. The first ripple of excitement was provoked when ex-Governor Counse, one of Nebraska's plomeer Republicans, asked consent to introduce a resolution. It was granted. When the secretary commenced reading the instrument the storm broke. It was intended as a rebulke to Senator Thurston for his activity in the campaign throughout the state leading up to the election of delegates, It recited that if his methods were to be adopted, the Republicans of the country should case to claim to represent the voice of the Regulation in the representation of the grather than the Republicans of the country should case to claim to represent the voice of the people. It compared him with individuals in ancient and foreign history who have sequented the roles of dictators, and conclinide with an extended rectation, intended to ridicule Seasor Thurston. Senator Thurston was acked to reply.

have sequenced to roles of diceasors, and conclined with an extended recitation, intended to ridicule Secastor Thurston. Senator Thurston was asked to reply, declaring his political carner was free from any dishonorable act and said the was ready to abid by the judgment of the majority.

The resolutions were tabled without discussion. This was the only demonstration of the opposition.

The following delegates were selected by acclamation and instructed to support McKinley: J. J., Webster, Peter Joneon, T. P. Kennard and George H. Thummel.

A number of leading Republicans addressed the convention, The platform congratulates the country, upon the cer-

tion and if it did not succeed there, it was to be carried to the polls. No good A.P. A., according to the law as laid down, could now or at any time in the future support, lend ald or comfort to the Mokindey candidacy. The St. Louis man was finally told that it was too late to change the slate, since the arrangements had been completed to round McKindley delegates to St. Louis, and the conference ended.

can state convention just closed in this city was one of the most entinushastic in the history of the state, and in some respects it was the most interesting. The whole northwest has looked to this convention with interest, and has awaited patiently for the result on the silver question and the presidential support. The delegates to the St. Louis convention were instructed to use all honorable means to support McKinley. The following is the mouse plank adopted by the convention:

The Republicans of North Dakota in Tonvention assembled renew their devocation to the doctrine of protection. The Republicans of North Dakota are united in their demand for honest money. We layor the use of silver as unreany, but to the extent only and under such conditions that its parity with gold can be maintained. We are therefore opposed to the free and unlimited columns of silver until it can be arranged by international agreement.

A number of leading Republicane addressed the convention. The platform congratulates the country upon the certain return of the Republicane to power. One of the side lights of the convention which was at one time likely to develop into interesting proportions was the stitude of the A. P. A. toward Mc. Kinley.

H. A. Thompson, member of the sex centive committee of the advisory board of the A.P. A. arrived in the city this morning direct from the Clineinnati meeting of the board, at which it was decided to popose the nomination of McKinley.

Mr. Blue, Republican of Kansas, who has on several recent conscious everyley criticised General Franklin, at once asked three bours to discusse the resolution. He proposed to offer an amendment to substitute the name of that gallant soldier, General C. O. Howard, for that of General Franklin.

Mr. Hull declined to make any concessions as to the time, and Mr. Blue opened his ottack. His purpose, he said, was to frea the Leavenworth home from the drunken and brutal man now at its head.

Washington, April 15.—The senate spent the entire day on the Dupont case, Mr. Gray of Delaware arguing against mr. Gray of Delaware arguing against the claim of Mr. Dupont. During the day Mr. Gorman proposed an agreement that a final vote on the Dupont case he taken next Wednesday. Mr. Mirchell, in charge of the case, declined to make an agreement at this time. This tender by Mr. Gorman was regarded as significant of the confidence of the opposition to Mr. Dupont to resist his claims to a seat. Mr. Gray will proceed with his spacet temorrow, after which there is promise of a further clash over taking up the bond resolution, as Mr. Allison stated today that the bond question must give way to appropriation bills. Mr. Gray yielded 44 o'clocia and the samute went into executive cession. At 4.56 p.m. the cenute reasumed its open session. Bills were passed amending the law relating to the protection of salmon fisherice in Alaska; for the sale of public lands by private cale in the state of Missouri; appropriating \$17,000 for acquiring hurial grounds at fort Meigs and Put-in-Bay Island, Olifo, and the interment therein of the comins of coldiers and sallors of the ward 1812. the claim of Mr. Dupont. Those who are watching the movement hope that it may do as much toward lifting the raisin business out of the had fix in which it now is as was done for the wine business by the wine association. There is no reason why the raisin business should not be as presperous as the wine business, and the joint committee has worked hard and is still working hard with that end in view, and as trying to drormulate a plan on which all can work in harmony, growers and packers. The is the critical time in the raisin question, and coulleads are trying to chape the curres toward prosperity, and there appears to be a general disposition on all sides to lend a holping hand.

Vengeance is mine, suith the Lord, but Evangelist Johnson evidently be-lieves that he has been called to render a large amount of assistance in visiting a large amount of assistance in transport retribution upon people who are so ungodly as to object to his peculiar rection of calling sinners to repentance. From the superior courts of Fream country to the inderal courts at Los Augoles and San Francisco the evangelist is taking San Francisco the evangence is taking his damage-seeking way and like any worldling is calling upon his critics to nungle large wats of lucre to eace the pangs of his constitue and disturbed feelings. In the meantime sinners are going pell mell the downward way with or himbrance from this gilted exout let or hindrance from two gutes us-panent of the religion which was taught by the divine Nazarone, but if he is seriously disturbed on this account the fact is not made apparent by the en-thusiasm with which he is devoting bimeelf to the work of prosecuting in courts of law those who do not agree

The Republican believes that through long years of consistent service in the long years of consistent estimate in the work of upholding and defending the moral sentiment of this community, it has earned the right to criticise in a deceat and proper way an utterance re-flecting untruthfully upon the chastity of the young girlhood of the community without incurring the hostility of those who have always been the willing r cipients of its support and encouragement. If it has not, well and good.

Those who count this service and the reasonable right of a public journal of less value to the community than the privilege of an itinerant to mouth an indecent falsehood from the pulpit and be held exempt from criticism, are wel-come to their opinion.

UNWARRANTED PUBLICATION.

There is evidently a good deal of stuff being published in regard to the attitude of the American Pro-tective Association towards McKinley that is inspired by partisanship, and has

aminded states.

An ender spurmed the off first discovered his power, he refused to the first discovered his power, he refused to the seasonistion.

Mowell is making money now. When he first discovered his power, he refused to except any pay and stack to his work and can say I have never seen anything equal to it. I have suffered the year days he has cleared how being an advantage and charges \$2 a head. In four days he has cleared more than \$1,000.

Nowell positively refuses to make any objection that can be raised it is preposterous to suppose that it will result in a declaration of hostility on the part of the order, for it the ban were to be placed upon every true American who reserves his allegiance for his country and his political party there would be rectically no limit to the amount of un required. The Regremance gives a dom than a sessociation credit for medium than a sessociation cre wisdom than would be indicated by such a course

Upon the cardinal propositions of restricted foreign immigration, non-sec tarian public schools and no public money for any sectarian purpose, with-out any doubt William McKinley stands sonerely in the affirmative with the vast agazety in the follow citizens. But it is to the political party of which he is an admitted leader that McKinley is an-sucrable for his opinions, and we are of the opinion that there is too much broad-gauge Americanism in the A. P. hold differently. There is no A. to hold differently. There is no place in this free republic for an ecclesisatical inquisition, nor can a political inquisition be successfully established.

As stated abrave, we are confidently of the opinion, that the alleged manifestor that are being published are partisen its their coaracter and unauthorized from auth oritative source.

RANDOM REMARKS.

It will be appropriate now for any-body to congratulate the citizens of Stockton on the fact that the rainy sea-son is practically past.

Now it is announced that the Roent-gen rays will kill the bacilli of cholera, diphtheria, inducuza, tuberculosis and authrax. The doctors who use it prob-ably will advertise: Eternal life guar-netend, or no pay. anteed, or no pay.

Our ions would, this! Here is a Sau Francisco girl of 16 years trying to commit euclide because her people objected to her marrying the young man of her choice. And just as like as not, if she were parmitted to marry him, willing the years she would be trying to commit suicide because she could not otherwise get rid of him. You bet it is a curious world!

Murderer Holmes confessed that he killed Miss Kata Durkee, of Omsla. Now comes Miss Burkee and confesses that he did not kill her. This leaves the question entirely one of truth and remainly between the young woman and Holmes. If he tells the truth, she is dead. If she tells the truth, she is alive. If either of them has any corroboratory evidence, he (or sho) should produce it. Otherwise they should expect the public to believe whom it pleases.

POSTOFFICE ON WHEELS. the Electric Motor Carriage to De Used In Large Cities.

Horseless mail wagons will soon be used in all the largecities of the United States. The credit for the application of he horseless electric motor carriage to the mail service belongs to Second Assistant Postmaster General Neilson. He

his man set the broogs of the history Postmaster General Notison. He has for several months been shudging the project, and a few days age completed the plans for the model carriage. It is now in course of construction and will be completed very soon.

The dimensions of this new wagon will be 12 feet long, 6 feet wide and a tritle ever 6 feet high. It will shuply be a small postoffice on whools. It will be fitted up precisely as in a mail street car or a steam railroad postal car, occept that the scale will be smaller. The body of the wagon will be hung or springs and the wheels shielded with heavy rubber tires.

For a long time General Nelson has been engaged in making investigations of the various means by which the mails may be transported. These investigations for the charter three longer three his wagons.

other various means by which the mails may be transported. These investigations helded street care, pneumatic tubes and the electric horseless wagons. It has now been definitely decided by the postoffice department to employ the horseless wagons in the transportation of muits in city and country districts where there are no relivary lines and where the service can be improved by making "separations" (assorting mail between offices) while in transit.

It is intended to place these wagons in service in cities which cover a large area and where "separations" prestly facilitate and their viscalines will greatly facilitate and deliveries.—Chichmatt Con-

If McKinley's record is antagonistic to the principles of the American Protective Association that is another matter, but no evidence to that effect has been submitted, and the character, ascolintons and broad principles of the typical American that he is renders it entirely improbable that such evidence exists.

THE MAN ABOUT TOWN

A Story Without a Moral or a Point.

WHAT THE LAWYERS PRAY FOR

Probably a Good Boy But Out o inck-Mr. Skinner and His Unfortunate Rubbit.

"Every once in a while," said the young man who sits at Duck No. 7 in the Republican's Cavo of the Imponitents. "I look at the city editor, and say to myself: 'Why cannot I be good and nable as he, and never smoke, and and nintle as he, and never smoot, due only swear when it is necessary, and so become fairly freekled with righteons ness, as he is?' Finally, last Sunday, h resolved to stop smoking. I continued my cigar until nothing but the stub reingere, and said: 'Farewell, baueful weed; blight of my existence, farewell. The Fire Department Gets Three Hundred Bollars-The Great

Register Cancelled.

At the meeting of the Board of Supervisors yesterday the following par-tial report on the swamp land fund, and the \$12,000 deficiency was presented: Fresno, Cal., April 15, 1896. o the Honorable Board of Supervisor

To the Honorable hoard of Supervisors of the County of Fresno; Gentlemen: Acting under the instructions of T. O. Jurgens Eaq., your expert for investigation of the evamp land fund of this county, I spent three days searching the records and archieves o searching the records and three the state at Sacramento. Owing to the fact that only one swamp land account was kept between the years 1868 and was kept between the years food me 1839, in which was placed the money received by the state from all the counties of the state having awamp lands, I only had time to investigate the credits to said fund by warrants received from Freenco-county, as, set the estilements of county treasurer on the dates following.

This net amount of \$39,010,81 was apportioned to the seamp land found on the dates when it was paid, into the state treasury. In addition to said amount I found that on January 12, 1858, the county treasurer of Freshooming the seam of the said treasurer aware band money sollected by him to the amount of \$556, and that he paid to the state school and general funds, until \$102,82, which was apportioned to the state school and general funds, making a total of \$40,243,13 paid to the state up to July 27, 1898.

the June 5, 1899, 1 found from the

etate exhol and general lumis, making a total of \$49,243,13 paid to the state up to July 27, 1895.

In Juno 5, 1896, I found from the state books that there was an apparent balance in the awamp land fund of \$132,935.07 and that on said dute earl amount, less \$525,50, was apportioned to some twenty or more counties, Fresno county getting warrant No. 403 for the sum of \$24,478.57, leaving an earl fund after said apportionment \$25,50.

From the above it will he scen that Fresno county to the time of said apportionment \$25,50.

From the above it will he scen that Fresno county to the time of said apportionment \$24,478.57, leaving an apparent deficiency of \$15,964.28.

It is possible that a portion of this difference was retunded by the state to the locators of swamp land prior to the apportionment of the balance to the counties, but it such were the case it should appear on our county books, and it does not so appear.

Owing to the vast number of debits to the fund on the state books I could not make even a superficial estimation of them to show whether the make had refunded.

In my judgment the swamp land fund of the state enough to the same understall that their records show the amounts paid by locators, but do not samounts paid you conties interested. From what I have seen and reported, and from certain matters upon which I cam not ready to report, I believe that a thorough and the laws of the state would eave Freeno county thousand of others.

Respectfully mobilities.

By 8 o'clock on the evening of April 14th the grounds and trees were gaily lightly with Chinese lantorns. The parlors were well dilled with relatives and immediate friends. The very tasterial decorations were of rones in great profusion. The bridal hower, where the ceremony took place, was composed of Ja France roses and lace.

To the strains of Mendoissohn's "Wedding March!" the couple entored the room and faced the minister, who in an impressive way spake of the happy occesion, and asked the necessary questions. After the responses, audibly and firmly spoken, he pronounced Mr. and Mrs. Rheinheimer "Imstand and wife—duly married." Congratulations followed, when the bride and groom led the way to a most sumptuous supper, with turkey and chickan, cake and pio, fruit, ice cream, coffee and all the electors. A very pleasant time was spent in sociability and games.

The bride wore a pale blue drees of imported "damesse et amine," trimmed with elegant lace. She wore orange blossoms and carried a boquet of exceedingly handsome La France roses.

The precents were numerous, some of them costly and all beautiful and useful. The attack on the bishops is the most notable measure proposed. These diguitaries are new elected for life and receive an number of \$5,000. It is now proposed that the bishops be elected only for a term of years and returned to the ministry when they have served their time in the bishoprio. It is said that many delegates are in favor of the change, and it is well known that there is strong sympathy for the idea in Cleveland.

Inid.

The question of admitting women delegates has long been pending, but it has now been submitted to vote in the form of the Baltimere-Colorado amendad. AN ENTERTAINMENT BY THE form of the Baltimore-Colorado mend-ment. The vote is nearly completed, and the result in the western and south-ern states gives a majority of over 400 ministers in favor of the vomen. The coloral conferences in the south went solid for women delegates. In the east-ern states the continent is against the amendment, and this majority will be cut down, nithough probably not over-come. Details have not been made public, but in a general way it is designed to convey useful hooks and the best literature to persons living in remote districts, to whem they are usually inaccessible.

Senator Stout is a member of the lumber firm of Kuapp & Stout. Horomoved from St. Louis to Menominee in 1880, and one of his first acts in his now home was to establish at his own expense a muncal training school. From a small beginning the school has grown until it is now one of the best equipped in the United States. The present buildings and modifiery cost \$70,000, and as fast as funds for enlargement are moded toy are supplied by Senator Stout. The school has been a success from the start.

PROPOSED PLAN FOR HANDLING RAISINS.

The Co-operative Packers Meet the Joint Committee-Good Results in Sight.

The joint raisin committee from the Chamber of Commorce and One Hundred Proussul Olab yesterday met about wordy members of the co-operative packing companies, and spent two and half hours in discussing the propose lan for handling raisins. The

plan for handling raisins. The object of the meeting was to hear from the coperatives their objection to the plans as outlined, and to consider any suggestions of changes whereby to make the plan acceptable to all.

The discussion proceeded in a straightforward, business way. The members of the committee explained the points to which objection had been raised, and the co-operatives stated that they were really to stand shoulder to shoulder with the proposition, provided they were convinced that it is not only formed in good faith, but that it contains provisions for the carrying out of its own terms.

good fath, our time it comming providence for the earrying out of its own terms.

The meeting remained in session till 6.30 o,clock and adjourned to meet again at 9.30 this morning. The general tenor of the discussion was toward harmony. The co-operatives expressed beneselves satisfied that the committee hard worked faithfully and conscientiously, and that any defects in the plan as formulated could be remediul. The co-operatives were much more favorably impressed with the plan atter its points had been explained by members of the committee than before. To lay the consideration of the matter will be resumed in the same friendly registrated and the same mutual desire to reach an agreement on which all can stand on an equal footing.
